## SUMMARY

I am a dedicated **PHP Laravel Backend Developer** with 3+ years of experience and a strong foundation in server-side programming, focusing on delivering efficient and scalable solutions. My expertise includes PHP, Laravel, database management, and APIs, allowing me to create dynamic applications. I am passionate about continuous learning and leveraging technology to solve complex problems.

## WORK EXPERIENCE

**9 DOT TECHNOLOGY**                                                              **Jan 2024 - Present**

- Currently working on backend solutions, specializing in PHP and Laravel frameworks to develop robust applications. My responsibilities include server-side programming, database management, and collaborating with cross-functional teams to optimize backend performance.

- **Projects**:
  - **TaxTribe:** Developed and managed a multi-role authentication system (Admin, Employee, Client) for a tax management platform using Laravel APIs. Implemented secure login and role-based access control to streamline user interactions.

  - **TrackMyDoc:** Built a Laravel-based tax management system with four user roles: Super Admin, Admin, Employee, and Client. Developed dynamic admin-wise tax handling with secure API integrations.

  - **FansClub**: Developed a secure admin portal to manage user accounts, content, and analytics for a fan-based platform.

  - **Jobly**: Built a secure login system for confidential job search and recruitment services.

**WORKDO SOLUTIONS PVT LTD**                                          **Apr 2022 - Nov 2023**

- Completed a six-month training program in PHP/Laravel development, followed by hands-on experience as a developer. Contributed to large-scale projects by managing backend logic, building robust APIs, and optimizing database performance to ensure high application reliability.

- **Projects**:
  - **EcommerceGo SaaS**: Offers features for inventory control, order processing, and customer management, providing a comprehensive solution for online businesses.

  - **TicketGo SaaS**: Developed a ticket management system to streamline customer support and improve query resolution.

  - **WorkGo SaaS**: Built and maintained tools for HR, payroll, project management, and team communication in a single platform.

## SKILLS

- Backend Technologies:  **PHP, Laravel, REST APIs**
- Frontend Technologies: **HTML, CSS, Bootstrap, jQuery, JavaScript**
- Database Management: **MySQL (Database Design, Query Optimization)**
- Programming Languages: **C, C++**
- Version Control: **Git, Github**
- Third-Party Integrations: **Google Analytics, Payment Gateways (Razorpay, Stripe, PayPal, etc...)**
- Security Enhancements: **Laravel Authentication & Authorization, Data Validation, CSRF Protection**
- WordPress: **WordPress setup, theme customization, and basic plugin management**

## EDUCATION

**Web Development Certification – March 2022**
Creative Multimedia Institute (Certified in PHP, Laravel, Frontend & Backend Development)

**HSC – 75.14% | March 2020**

## LANGUAGES

**English**
**Hindi**
**Gujarati**
